

August 17, 1967

Bill Turner

Jim Garrison

Photographs

The man who is going to get the photographs we have recently discussed must get them through a D.A. who attended the convention and is not yet back in California. The man also would like the letter from you we talked about on the phone the other day. When it arrives he will make the contact, as the D.A. will be back by next Monday.

I thought I would explain the delay.
